

PROFESSIONAL SUMMARY

Innovative Software Developer with 2+ years of experience in mobile and full-stack application development, specializing in Kotlin, Jetpack Compose, and Clean Architecture. Proven track record of enhancing app performance, integrating advanced features like Razorpay, Google Maps SDK, Camera X and ML Kit, and delivering scalable solutions in the Healthcare, E-Commerce, and Fintech domains.

EXPERIENCE

Software Developer <i>General Diagnostic International Pvt. Ltd. – Full-time</i>	Nov 2023 – Present <i>Navi Mumbai, Maharashtra, India</i>
- Developed scalable healthcare features using Kotlin, Jetpack Compose, and cross-functional collaboration. - Integrated CameraX, Google ML Kit, and Google Maps for image processing, motion detection, and real-time location tracking. - Converted Figma designs into modular, maintainable, and testable UI components through requirement analysis and system design. - Built RESTful APIs in a Backend-for-Frontend (BFF) architecture using ASP.NET, improving API performance by 15%.	
Android Engineer Intern <i>Spare8 Platforms Pvt. Ltd. – Internship</i>	Apr 2023 – Nov 2023 <i>Mumbai, Maharashtra, India</i>
- Revamped the app architecture to MVVM Clean Architecture, reducing code complexity and improving maintainability. - Implemented dependency injection using Dagger-Hilt, enhancing app scalability and modularity. - Improved app performance by 30% through optimization techniques, including reducing memory leaks and enhancing API calls. - Actively contributed to the CI/CD pipeline setup, ensuring smooth deployment through Git.	
Mobile Application Developer Intern <i>Byasa Tech Solutions Pvt. Ltd. – Internship</i>	Oct 2022 – March 2023 <i>Mumbai, Maharashtra, India</i>
- Applied MVVM Architecture Pattern to refactor the app, increasing modularity and testability. - Integrated an offline-first database using Room DB, enabling smooth data access and periodic cloud sync. - Migrated from Gson to Moshi for serialization, reducing deserialization errors by 20%.	
Mobile Application Developer Intern <i>Invizio Solutions LLP. – Internship</i>	March 2022 – Sep 2022 <i>Mumbai, Maharashtra, India</i>
- Contributed to enhancing a production app by adding new features and integrating REST APIs. - Integrated hardware devices via Bluetooth, enabling seamless communication between the app and peripherals. - Resolved critical bugs in the production environment, improving app stability.	

SKILLS

Languages	: Java, Kotlin, JavaScript (ES6), SQL, HTML5, CSS3, C.
Frameworks / Libraries	: Spring, Spring Boot, RESTful APIs, Microservices, Ktor, Node.js, Jetpack Compose, React.js, Next.js, Tailwind CSS.
Architecture & Design	: Clean Architecture, Microservices Architecture, MVI, MVVM, MVP, MVC.
Databases	: PostgreSQL, MySQL, MongoDB, Firebase, Room DB, Realm DB, ObjectBox (NoSQL).
Tools	: Linux, Git, Docker (basic), AWS (S3, DynamoDB - basic), CI/CD fundamentals.

EDUCATION

Vasantdada Patil Pratishthan's College of Engineering & Visual Arts <i>B.E. Information Technology Engineering – University of Mumbai</i>	Mumbai, Maharashtra, India 8.12 CGPA

PROJECTS

Cradle Care	<i>Technology Used: MVVM Clean Architecture, Razor-Pay, Dagger-Hilt, Spring Boot, PostgreSQL.</i>	Source Code
- Developed a full-stack healthcare app with secure session handling using JWT, and payment integration via Razorpay. - Implemented authentication/authorization and built a Spring Boot application, ensuring data consistency with PostgreSQL.		
Material X	<i>Technology Used: Kotlin, Android, Jetpack Compose, Material Components, Git, JitPack.io.</i>	Live Link
- Designed and developed Material X, a customizable Android UI component library featuring dialog boxes and pickers. - Motion Sync feature enables user-added components to move in sync with phone tilt, enhancing user interaction and customization.		
B Fit	<i>Technology Used: Kotlin, Navigation Component, Firebase Google Auth, Lottie Animation, Coil Lib</i>	PlayStore Link
- Created B Fit, a fitness app offering workout plans and diet recommendations curated by expert dietitians. - Leveraged responsive design principles to ensure a seamless experience across devices.
