EDUCATION

Vasantdada Patil Pratishthan's College of Engineering

B.E. Information Technology Engineering – University of Mumbai

Mumbai, Maharashtra, India

8.12 CGPA

EXPERIENCE

Software Developer

General Diagnostic International Pvt. Ltd. – Fulltime

Nov 2023 – Present

Navi Mumbai, Maharashtra, India

- Innovated and developed new features for the application using Kotlin Jetpack Compose.
- Integrated CameraX, Google ML Kit, and Google Maps SDK for image capture, face motion detection, and real-time location tracking.
- Crafted application designs with precision using Figma.
- Engineered REST APIs in the BFF layer utilizing ASP.NET.

Android Engineer

Spare8 Platforms Pvt. Ltd. – Fulltime

Apr 2023 – Nov 2023

Mumbai, Maharashtra, India

- Transformed the existing framework to MVVM Clean Architecture.
- Handled Application dependencies using Dagger-Hilt.
- Boosted app performance from baseline to 30%.
- Gained experience with CI/CD pipeline processes using Git Repository.

Jr. Mobile Application Developer

Byasa Tech Solutions Pvt. Ltd. – Fulltime

Oct 2022 – March 2023

Mumbai, Maharashtra, India

- Adopted MVVM Architecture Pattern for the existing framework.
- Implemented offline-first database (Room DB) with periodic cloud sync.
- Migrated Serialization framework from GSON to Moshi.

Mobile Application Developer Intern

Invizio Solutions LLP. – Internship

March 2022 – Sep 2022

Mumbai, Maharashtra, India

- Enhanced the production app with new features and REST APIs.
- Expertly handled hardware device integration via Bluetooth.
- Diagnosed and resolved bugs in the production environment.

SKILLS

Languages	: Kotlin, Java, Dart, Javascript ES6, CSS3, HTML5, C.
Frameworks	: Jetpack Compose, Ktor, KMP (Kotlin Multiplatform), Flutter, Next Js, Tailwind CSS.
Architecture	: Clean Architecture, MVI, MVVM, MVP, MVC.
Libraries	: Dagger-Hilt, Koin, Retrofit, Coroutines, Flow, Paging 3.0, Rx-Java, CameraX, Razorpay, Material 3.0.
Databases	: Room Db, Mongo Db, Realm Db, Postgre SQL, My SQL, Firebase, Object Box (No SQL).

PROJECTS

Cradle Care	<u>Technology Used:</u> MVVM Clean Architecture, Razor-Pay, Dagger-Hilt, Firebase, KTOR, PostgreSQL.	<u>Source Code</u>
• Built the Cradle Care fullstack app with MVVM, Dagger-Hilt, RazorPay, Firebase Auth, and a KTOR backend using PostgreSQL. • Implemented JWT session handling and real-time communication for a secure pre-delivery healthcare experience.		
Material X	<u>Technology Used:</u> Kotlin, Android, Jetpack Compose, Material Components, Git, JitPack.io.	<u>Live Link</u>
• Developed Material X: a customizable Android UI component library with pickers and dialog boxes. • Deployed on JitPack.io for easy integration, with Apache 2.0 licensing and comprehensive documentation.		
B Fit	<u>Technology Used:</u> Kotlin, Navigation Component, Firebase Google Auth, Lottie Animation, Coil Lib	<u>PlayStore Link</u>
• Designed and developed a Fitness application for fitness freaks providing best workout plans and high quality diet from experienced dietitian. • Utilized responsive design to ensure compatibility across all devices.
